

## MISS LUSK GAINS AIDS: HER FATHER AND A COLONEL

Parent and Rich Friend  
Sit at Side and Face  
the Jurors.

BY LESTER COLBY.

Waukegan, Wis., May 14.—[Special.]—The world moved for Grace Lusk today. First her old father came to sit by her side and pat her arm while a jury and the world tries her for the murder of another woman. Next came "the colonel," an ancient man with white pointed beard, who shook her hand and bade her to be of good courage.

These two facts seemed of greater import to the schoolman, lawyer, pliant juror today, than the choosing of the jury. They did not get a jury tonight as they had hoped. The entire venire of 186 had been speedily sifted through.

Special Venire Called.  
Judge Luck immediately called a special venire of seventy-five more for tomorrow morning. Attorneys declare that this one more day will surely see the panel complete. Probably they could have a jury now, but the Wisconsin law is an odd one.

Twenty apparently suitable jurymen must be seated in the box, and from these defense and state must "strike" individuals until the final twelve are left.

Miss Lusk's father, bent a bit, more than 70 years old, arrived shortly before noon direct from his home in a little northern Wisconsin pine woods village. He is a dentist of Mosinee, a place in the profession. He walked into the courtroom as one confused.

The daughter, his only daughter, on trial for the killing of Mrs. Mary Newman Roberts, rose from the side of her counsel and rushed to him.

Trial Is Forgotten.  
For the moment court trial, everything seemed forgotten. She kissed the old man, gave him a little kiss and said, "I'm so glad, daddy, that you're here."

He sat down beside her, very close, and listened to the questioning of the witness. During a recess he remarked as a half prayer:

"They'll never convict my girl! Never! They'd free her in a minute up in the woods where I live. The man is the one to blame. My girl kill any one if she were not insane? No, my girl could not have done it. Surely it is the man who is to blame."

Afternoon it was when "the colonel" came. He is Col. J. R. Buchanan, as the old man gave him a little kiss and said, "I'm so glad, daddy, that you're here."

### STUDIES FREUD

Grace Lusk Delves Into Sex Writers' Theories on Dreams.

Waukegan, Wis., May 14.—[Special.]—The Freudian theory of dreams "has been one of the studies of Miss Grace Lusk, on trial here for killing Mrs. Mary Newman Roberts, wife of the veterinarian she loved."

Freud! He is a psychologist that all who run do not read. He is a morsel for the bookworm, the one who digs into the unusual loves, the musty small of the out of the way bookshop. Freud says that all the world hangs on sex, hinges on sex, and is sex.

Freud sees sex in the mountain and the hillside, the river and the willow, the rocks and the sand. Freud was an Austrian. His strange theories on sex were printed in German.

"The Freudian theory of dreams," said one of the best known, perhaps, of his remarkable dissertations on life.

"I have read a diluted edition of this; diluted for the mentally feeble," said Miss Lusk.

"You should read it, Freud will take a most barren dream and lead you through strange paths and reach a most delightful and satisfactory solution. He will make the ending perfectly logical and satisfactory where you saw nothing in the beginning."

Freud is not read every day. Freud is synonymous with a psychological study of sex.

"Have you read the newspaper stories about Prof. Thomas and Mrs. Granger?" Miss Lusk was asked.

"Yes, with interest," she said.

"What do you think of the affair?" "I don't know," she replied.

"I don't know," she replied. "I don't know," she replied. "I don't know," she replied.

### PUNISH DEALERS IGNORING RULES ON FLOUR SALES

Licenses Revoked, Others Suspended; Trace Hoarded Stores.

Several dealers who have ignored or disobeyed orders of the food administration regarding sales of flour were punished yesterday after the violations had been looked into by the recently established bureau of investigations.

August Gapes of Waukegan is the first grocer to lose his license for neglecting to observe restrictions. Gapes is charged with having sold 100 pounds of wheat flour without making his customer take an equal amount of substitutes. The order is to take effect May 20 and the offender cannot resume business until given written permission.

Gagliardo & Gallotti Brothers, 1031 Sedgwick street, have been forbidden to purchase any more flour. The order was issued because the firm had used more than its allotment.

Pays Voluntary Fine.  
The Home Grocery company, which had been selling corn flakes as a substitute for wheat flour, was shown the error of its ways and paid a self-imposed fine of \$25 to the Red Cross.

The Naples Macaroni company, 625 South Racine avenue, was ordered to go out of business. This firm started up at Second and Jefferson streets, dealer at Second and Jefferson streets, dealer at Second and Jefferson streets.

O. S. Stutzman, wholesale and retail dealer at Second and Jefferson streets, Springfield, Ill., was ordered not to make any more sales of either flour or sugar until notified to the contrary.

Managers Are Discharged.  
Three branch store managers have been discharged by the Great Atlantic and Pacific Tea company for making sales of sugar in excess of the limitations made by the food administration.

The bureau has been locating excess quantities of flour held by individuals, said Mr. Adams. "During the last few weeks we have accumulated accurate information as to quite a large number of private holdings. If flour is hoarded we shall proceed to put the flour back into the regular trade channels."

19 Chicago Lads Leave for Deep Sea War Duty  
Nineteen Chicago boys are included in a contingent of 200 sailors from the Great Lakes Naval Training station who left yesterday for deep sea duty. All will enter the service as firemen, third class. Capt. William A. Moffett, commander of the station, yesterday voiced his approval of the plan of women of the north shore towns to give free season tickets to sailors for the concerts and dances Saturday and Sunday afternoons at Ravinia.

## JULY 4 ON JULY 1? THAT'S NEW TURN IN WAR ECONOMY

Midweek Holiday Frowned  
On by Engineers as  
Coal Waster.

The "glorious Fourth" may be celebrated this year on a "glorious first." It will, if the American Association of Engineers has its way. And any other holiday which is so inconsiderate as to fall on some other day of the week should be celebrated—for the duration of the war—on the Monday nearest its date. That, at least, is the engineers' idea of it.

The reasons? Greater efficiency; fuel conservation; the enjoyment of the workers.

Against Midweek Holidays.  
The association, which held a "win the war" convention here yesterday at the City club, jointly with the committee on engineering cooperation, agreed, as a result of a meeting with federal fuel conservation authorities, to the effect that holidays falling in midweek are a nuisance. They require the shutting down of industry for a day, and its restarting. Thus, fuel, now supremely valuable, is wasted. Also time of labor. Also the break does not give labor the chance for continuous enjoyment that a holiday means.

The "Fourth" this year falls on Thursday. The nearest Monday would be the first. Consequently, in the name of efficiency and fuel conservation, celebrate on the first.

Plans Fuel Saving.  
The joint convention also recommended methods for saving fuel, among which was a recommendation to lay in supplies against a possible sixty days' shortage. Its resolutions, in addition, strongly urge a settled policy of universal military training "as a means of developing qualities of mind, body and character, and as a discipline which is one of the recognized needs of our people, and thus insuring our land against attack from outside aggression."

Other resolutions protest against the shipping board obtaining technical men from private employment agencies, when such aid can be procured free from the subdivision of the department of labor known as the "public service reserve," and also protest against Secretary McAdoo having an increase in the pay of technical engineers employed on railroads upon the 1918 wage scale, when that basis has the greater 1918 scale, in view of increased living cost.

her, light her, and hide her in the clouds of a smoke screen.

"There was no preliminary bombardment of the harbor and batteries, as before the previous attempt. That was to be the first element in the surprise. A time table had been laid down for every stage of the operation, and the staff work beforehand even included precise orders for laying the smoke barges, with plans calculated for every direction of the wind.

**Galt Always Solemn.**

"Monitors anchored in firing positions far seaward awaited the signal. The great sea batteries of the Royal Marine artillery in Flanders, among the largest guns that were ever placed on land mountings, stood by likewise to neutralize the bigger German artillery along the coast, and the airmen were to collaborate with an aerial bombardment of the town, waited somewhere in the darkness overhead. Destroyers patrolled to seaward of the small craft.

"The Vindictive, always at that solemn gait of hers, found the flag ship's light buoy and bore up for where a coastal motor boat commanded by Lieut. William R. Slayter was waiting by a calcium flare upon the old position of the Strom bank buoy.

**Guns Open Fire.**

"Four minutes before it arrived there, and fifteen minutes only before it was due at the harbor mouth, the signal for the guns to open was given. Two motorboats, under command of Lieut. Albert L. Poland, dashed in toward the ends of the high wooden piers and torpedoed them. There was a machine gun on the end of the western pier, and that vanished in a roar and leap of flames which called to the guns.

"Over the town a flame suddenly appeared high in the air and sank slowly earthwards—the signal that the airplanes had seen and understood. Almost coincidentally with their first bombs came the first shells, whooping up from the monitors at sea. The surprise part of the attack was sprung.

"The surprise, despite the Germans' watchfulness, seems to have been complete. Up until the moment when the torpedoes of the motorboats exploded there had not been a shot from the land—only occasional routine star shells.

**Great Batteries Blinded.**

"The motor launches were doing their work magnificently. These pocket warships, manned by officers and men of the Royal Naval volunteer reserve, are specialists at smoke production. They built to either hand of the Vindictive's course the likeness of a dense sea mist driving landward with the wind. Star shells paled and were lost as they sank in it; the beams of searchlights seemed to break off short upon its front. It blinded the observers in the great batteries, which suddenly upon the warning of the explosions of guns, roared into action.

"There was a while of tremendous uproar. The coast about Ostend is ponderously equipped with batteries, each with a name, known and identified as 'Von Tirpitz,' 'Von Hindenburg,' 'Deutschland,' 'Ocella,' and the rest. They register from six inches to monsters of 15.7 inch naval pieces in land turrets, and the royal marine artillery fights a war long duel with them. These now opened fire into the smoke and over it at the monitor and marines. And the monitors replied.

Enveloped in Sea Fog

"Meanwhile the airplanes were bombing methodically, and anti-aircraft guns

## SHRAPNEL

A reception for Capt. M. G. Ball and other officers and men of Company M, Fourth United States Infantry, will be given by Englewood lodge, No. 883, Independent Order of Oddfellows, Saturday night at Thornton hall, Sixty-ninth street and Normal boulevard.

Germany's responsibility for the war was declared and her method of waging it attacked yesterday by Henry Van Dyke, author, preacher, and former United States minister to the Netherlands. He spoke to an enthusiastic audience of jockies at the Great Lakes Naval station.

A hamper of beans donated to the Red Cross by a Walker, La. shipper sold on South Water street yesterday for the sum of \$60. This was more than \$2 a quart, as the hamper contained only thirty-two quarts. After the auction the winner, John A. Rusk, turned it over to an Evanston grocer who will today sell the beans and add the returns to the Red Cross fund.

A call for a special induction of 414 shipyard men has been received by Chicago draft boards for the following lines of work in France: Gas plant workers, locomotive inspectors, railroad brakemen, steam locomotive engineers and firemen, shipyard inspectors, boiler makers, steel car workers, gunsmiths, veterinarians, and stablemen.

They were searching the skies for them. Star shells spouted up and floated down, lighting the smoke banks with spreading green fires, and those strings of luminous green balls, which the airmen call "flaming comets," soared up to lose themselves in the clouds.

"Through all this stridency and blaze of conflict the old Vindictive, still unburring, was walking the lighted water toward the entrance. It was then that those on the destroyers became aware that what seemed to be merely smoke was wet and cold; that the rigging was beginning to drip, and that there were no longer any stars. A sea fog had come on.

**Air Attack Suspended.**

"The destroyers had to turn on their lights and use their sirens to keep in touch with each other. The air attack was suspended, and the Vindictive, with some distance yet to go, found herself in gross darkness.

"There were motor boats on either side of her escorting her to the entrance. These were supplied with what are called Dover fuses, enormous lights capable of illuminating square miles of sea. At once every pistol was fired as a signal to light these, but the fog and smoke together were too dense even for the fuses.

"The Vindictive then put her helm over and started to cruise to find the entrance. Twice she must have washed against, and at the third turn, upon reaching the position at which she first lost her way, there came a rift in the mist, and she saw the entrance and the piers on either side, and an opening dead ahead.

**Hit Every Few Seconds.**

"The inevitable motor boats U. P. No. 22, commanded by Acting Lieutenant Guy L. Cockburn, raced on into the opening under heavy and momentarily growing fire, and planted a flare on the water between the piers. The Vindictive steamed over it and on. She was in.

"The guns found her at once. She was hit every few seconds after she entered, her scarred hull broken afresh in a score of places, her decks and upper works swept by machine guns. From machine guns at the inshore end of the pier, from a position on the front, and from machine guns apparently firing over the eastern pier, there converged upon her a hail of lead.

"After the control tower was demolished by a shell which killed all the occupants, including Sublieut. Angus H. MacLachan, who was in command of it, the upper and lower bridges and the chartroom, swept by bullets, Commander Godsal ordered the officers to go with him to the conning tower. They observed through the observation slit in the steel wall of the conning tower that the eastern pier was breached some 200 yards from the seaward end, as though at some time a ship had been in collision with it. They saw the front of the town silhouetted again and again in the light of the guns that blazed at them. The

night was a patchwork of fire and darkness.

**Nose Against Pier.**

"Immediately after passing the breach in the pier, Commander Godsal left the conning tower and went on deck, the better to watch the ship's movements. He chose a position and called in through the slit of the conning tower his order to starboard the helm. The Vindictive responded and laid her battered nose to the eastern pier and prepared to swing her 320 feet of length across the channel.

"It was at that moment that a shell from the shore batteries struck the conning tower. Lieut. Sir John Alleyne and Lieut. V. A. C. Crutchley were still within. Commander Godsal was close to the tower outside. Lieut. Alleyne was stunned by the shock. Lieut. Crutchley shouted through the slit to the commander, and receiving no answer, rang for the port engine full speed astern, to help the swinging ship. By this time she was lying at an angle of about forty degrees to the pier and seemed to be hard fast; so it was impossible to bring her further around.

"After working the engines some minutes to no effect, Lieut. Crutchley gave the order to clear the engine room and abandon ship, according to the program previously laid down. Engineer Lieutenant Commander William A. Bury, who was the last to leave the engine room, blew the main charger by a switch installed aft. Lieut. Crutchley blew the auxiliary charges in the forward six inch magazine from the conning tower.

**Her Work Is Finished.**

"Those on board felt the old ship shrug, as the explosive tore the bottom plates and bulkheads from her. She sank about six feet and lay upon the bottom of the channel.

"Her work was done.

"It is to be presumed that Commander Godsal was killed by the shell which struck the conning tower. Lieut. Crutchley, searching the ship before he left her, failed to find his body or that of Sublieut. MacLachan in that wilderness of splintered wood and shattered steel.

"In the previous attempt to block the Ostend harbor, a night force guided by the brilliant, and together with all the officers of that ship and of the Sirius

had volunteered at once for the further operation.

Engineer Lieutenant Commander Bury, who was severely wounded, had been in the Vindictive in the attack on Zeebrugge mole. He had urged upon the vice admiral his claim to remain with her, with four engine room artificers, in view of his and their special knowledge of her engines. The names of these four are A. Cavanagh, H. M. S. Vindictive, wounded; M. Carroll, Royal Naval barracks, Chatham, wounded; A. Thomas, H. M. S. Lion, missing; H. Harris, H. M. S. Royal Sovereign.

All was according to program. Recall rockets for the small craft were fired from the flagship at 2:30 a. m. Great red rockets whizzed up, to lose themselves in the fog. They could not have been visible half a mile away, but the work was done and one by one the launches and motor boats commenced to appear from the fog and stopped their engines alongside. The destroyers exchanged news with them. There were wounded men to be transferred and dead men to be reported. But no one had seen a single enemy craft.

**Destroyers Are Discreet.**

"Nine German destroyers which were out free to fight, had chosen the more discreet part.

"The casualties, as at present reported, stand at two officers and six men killed; two officers and ten men wounded. The Vindictive, missing and believed killed, and four officers and eight men wounded.

"It is not claimed by the officers who carried out the operations that Ostend harbor is completely blocked. But its purpose to embarrass the enemy and make the harbor impracticable to any but small craft and for dragging operations difficult, has been fully accomplished. The position of the Vindictive is with stem on to the eastern pier, and not her stern, as shown in certain published illustrations."

**SUBV. POLICE CHIEFS SHIFT.**

C. J. Cooper, former chief of police of Chicago, will become acting chief of Winnetka this morning when Chief of Police W. W. Petersen leaves for Pensacola, Fla., to become captain of a night force guarding a government ship building yard. Petersen has been granted a leave of absence for four months.

(Continued from first page.)

they were willing to go back to work in the morning if assurances were given that steps would be taken to arbitrate their request for a general raise in pay. It was said the men wanted a flat raise of \$3 a week for each driver. Another statement also emanating from union headquarters was that the two team men wanted a raise from \$21 a week to \$25 and others in proportion.

Team owners said they were willing to appoint a committee to meet with representatives of the union to negotiate a new wage scale at once if the men returned to work. It was added that unless the men did return to their employment no negotiations would be considered.

**No Desire to Interfere.**

Both sides stated they had no desire to obstruct in any way the war activities of the government; and the officials of the teamsters pointed out that they had left men of their organization at work to take care of the government transportation work. Interference with the movement of federal owned ma-

terials, they explained, had been due to misunderstanding on the part of the strikers.

Acting Chief Alcock detailed police on the strike job early in the day. He sent out a hurry order, as soon as he learned of the walkout, instructing all commanding officers to get every available man on reserve for strike duty. He conferred also with Mr. Clabaugh and told him that the entire force of the city was at the government's service and promised that every report of disorder would be attended to promptly. The walkout was of mysterious origin. Without announcement to employers or barn bosses members of the Chicago Teamsters and Helpers' and the Chicago Truck Drivers' and Helpers' unions quit. Officials of the two unions at first denied they knew anything of a strike. The strikers asserted they had been ordered out, but would give no further information. As far as could be learned the International Brotherhood men were forced off their wagons by intimidating tactics used by flying squadrons of striking slugs.

Members of the employers' organization stated that the strike was in direct violation of their contracts with all the team drivers' unions which provide that notice shall be given before any walkouts are ordered. The owners stated also that the brotherhood union, which is affiliated with the Federation of Labor, has never violated an agreement.

**Government Steel Halted.**

Trucks used to haul government steel from the Scully Iron works and the plant of Edward T. Ryerson & Son were stopped and the drivers intimidated by sluggings crews of from ten to twenty-five men.

In one instance a driver's guard was shot. He was William J. Shannon, an operative of the Harding Detective agency, who was riding with a driver, Joseph Kelly of the A. T. Willett company, 230 East Grand avenue. At Grand avenue and State street a group of strikers showered the men with bricks and a revolver was fired. One bullet passed through Shannon's right leg. While he was being taken to the Provident hospital strikers again rained bricks on Shannon and he was injured on the head.

## WILSON OPP BLANKET P FOR WAR IN

(BY A STAFF CORRESPONDENT)

Washington, D. C., May 14.—After a conference with President Wilson at the White House, Senator Thompson, chairman of the committee on the military affairs, today announced that he had introduced into the conduct of the war. The president feels the need to investigate the conduct of the war, and he is in favor of an amendment to the broadening of the military affairs committee's jurisdiction to include the conduct of the war, and he is in favor of an amendment to the broadening of the military affairs committee's jurisdiction to include the conduct of the war.

Under the Chamberlain military affairs committee is authorized to go to an expenditure to bring with it and prosecute an exhaustively to every feature of the war.

Under a provision of "penalties," the military affairs committee might go to the President without the authorization of the Senate. The committee's jurisdiction could not go into the details of the war, but it could investigate all war activities, and it could make recommendations to the President. The committee's jurisdiction could not go into the details of the war, but it could investigate all war activities, and it could make recommendations to the President.

Predicts Floor Fight

"If the resolution is not committee so as to restrict the military affairs committee and to emasculate the President's power, the floor of the Senate will be the scene of a fight," said Senator Thompson. "I believe, the majority of the committee will advise the President to take the necessary steps to bring about a more efficient prosecution of the war. I am not much bothered by the Chamberlain resolution, but I am in favor of an amendment to the broadening of the military affairs committee's jurisdiction to include the conduct of the war, and he is in favor of an amendment to the broadening of the military affairs committee's jurisdiction to include the conduct of the war."

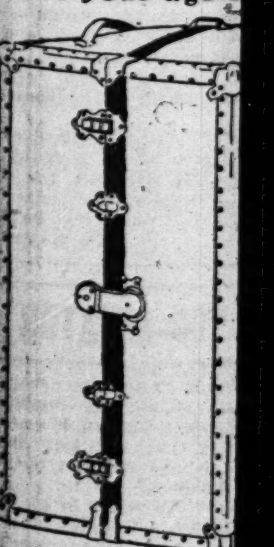

Hitchcock Not Worried

As to the suggestion of Thompson that the military affairs committee might not be all unrestricted funds wanted, Senator Hitchcock said: "I am not much bothered by the Chamberlain resolution, but I am in favor of an amendment to the broadening of the military affairs committee's jurisdiction to include the conduct of the war, and he is in favor of an amendment to the broadening of the military affairs committee's jurisdiction to include the conduct of the war."

## WILSON OPPOSES BLANKET POWER FOR WAR INQUIRY

Would Limit Chamberlain  
Move to Aircraft and  
Ordnance.

(By A. STAFF CORRESPONDENT.)  
Washington, D. C., May 14.—(Special.)—After a conference with President Wilson at the White House this evening Senator Thompson of Kansas, chairman of the committee on audit and contingent expenses of the senate, said that Senator Chamberlain's resolution before his committee to authorize the military affairs committee to proceed with the unrestricted inquiry into the conduct of the war would probably not be reported out to the senate, unless appreciably modified.

"The president feels that the proposal, as embraced in the resolution, to investigate the 'conduct of the war' is a reflection upon the administration," Senator Thompson said. "I am authorized by the president to say that he is in favor of an aircraft inquiry, but opposed to the broad investigation contemplated in the Chamberlain resolution as being entirely unnecessary."

**Given Broad Powers.**  
Under the Chamberlain resolution the military affairs committee would be authorized to go to any necessary expenditure to bring witnesses before it and prosecute an exhaustive inquiry relative to every feature of the conduct of the war.

**Under a provision of "traveling expenses,"** the military affairs committee even might go to the French front. Without the authorization for unlimited expenditure the committee's inquiry could not go into the broad field of all war activities. Senator Thompson made it plain tonight that he would fight in the audit committee against granting the carte blanche desired by the military affairs committee. He did not undertake to say what the attitude of the others upon the audit committee might be.

**Fredrick Floor Fight.**  
"If the resolution is not modified in committee so as to restrict the investigation of the military affairs committee and to emasculate the provision for unlimited funds, it will be fought upon the floor of the senate," said Mr. Thompson. "I believe, though, that the majority of the committee will follow the advice of the president."

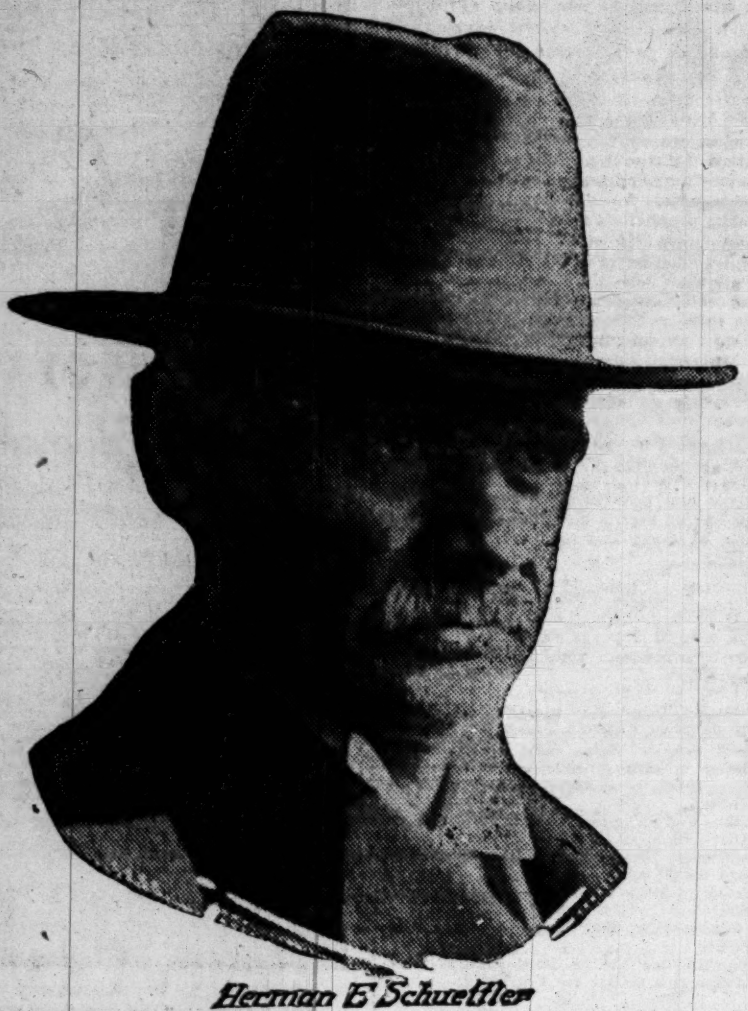

Senator Hitchcock said tonight that there was no disposition on the part of the military affairs committee to investigate all war activities. "We are not seeking to embarrass the president," said Senator Hitchcock. "We want simply to go into phases of aircraft and other production, and I think the senate as a whole wants that character of inquiry."

Senator Hitchcock said he believed the military affairs committee would readily consent to the elimination of the "conduct of the war" phrase from the Chamberlain resolution, so as to confine it to production of war material.

**Hitchcock Not Worried.**  
As to the suggestion of Senator Thompson that the military affairs committee might not be allowed the unrestricted funds wanted for its inquiry, Senator Hitchcock said: "I am not much bothered about Senator Thompson's individual opinion. The senate will know what is needed in the way of funds. I do not apprehend."

## AS HE LOOKS

Chief Schuettler's Face Shows Traces of Illness Which Kept Him in the South for Months.

Herman E. Schuettler

## CHIEF PERKS UP AT FIRST SNIFF OF HOME AIR

Schuettler Expects to Be  
in Touch with Job in  
Two Weeks.

The oldest of old fashioned remedies may bring to Chief Schuettler what four months' stay at a southern resort failed to give him.

Friends who saw him "back home" again yesterday said they believed he had come to the right place for treatment for his nervous breakdown. They spoke of it the moment the "treatment" began and dwelt upon it emphatically after they had seen it begin to "take hold."

It began when he stepped from the train that brought him back from Florida. Six children—counting the "in-laws"—threw their arms around his neck and then "the boss," a grandson of 5, took possession of his prisoner and patient. There was a moisture visible around the big chief's eyes, but those who had been his fellow passengers said that he looked better and stronger at once.

**Takes on Life.**  
With as many members of the family as could be crowded into a large car, Schuettler started homeward and there was more liveliness in his expression and action than he had shown for many weeks.

At the north side home there appeared a second grandson who had been in school when the train came in, and the full course of treatment was declared in progress. The chief, fatigued by his long ride from Jacksonville, Fla., where he had been for the last two months, said he was a "new man." Mrs. Schuettler thought she saw encouraging signs every few minutes.

**Two Weeks Will Tell.**  
The next two weeks are expected to tell the story. The chief's four months' stay in Florida was his longest absence from Chicago and from his family in many years. Possibly, it is felt, the stay was too long. At least his nervousness and weakness did not disappear. Now, if the promises of the first day are fulfilled, anxious ones believe, he will be started on the duty sufficiently to take over the duties of his office, gradually.

He did not visit the city hall his first day back in the city. He wanted to call on Mayor Thompson and was disgusted from it only by the argument that he must have rest. Acting Chief Alcock and his secretary, Charles Agnew, met him at the train and also visited him at home. But it was said they talked over general conditions more than specific matters of police business.

## BIGGEST FIELD ARTILLERY MOVE SINCE CIVIL WAR

Camp Grant Men Cover  
15 Miles and Astonish  
Officers.

Rockford, Ill., En Route with the One Hundred and Sixty-first Artillery Brigade, May 14.—(Special.)—Fifteen May time miles were covered today in the biggest field artillery movement on record in the United States since the close of the civil war. Promptly at 4:30 this afternoon the head of Col. Philip R. Ward's column of national army artillery swung from the Blackhawk trail to debouch into pasture lands of the A. J. Lovejoy farm, nine miles north of Rockford and fifteen miles north of Camp Grant. Field kitchens were set up in less than half an hour and weary gunners of the brigade sat down to their first hot meal in the long march to Sparta, Wis.

Veteran artillery officers accompanying the brigade on its march expressed astonishment and delight at the first day's record on the road. With 1,500 green recruits, picked from the depot brigade in Camp Grant yesterday to help fill the ranks of the Three Hundred and Thirty-first, Three Hundred and Thirty-second, and Three Hundred and Thirty-third field artillery regiments, and with 4,000 horses whose experience in field work has been limited to short practice marches about camp, the column came through its first day's test with colors flying.

**Reg to Stay on Horses.**  
At hourly intervals along the route the entire column was halted, the musical commands being given over the intervening miles, and both officers and men dismounted to rest both themselves and the horses. Before the last halt was made, an hour ahead of the column, to bivouac, scores of rookie artillerymen, some of whom had never before straddled a horse, begged to be allowed to remain seated.

"Honest, sir," explained one recruit to a sympathetic lieutenant, "if I get down from this nag it's all off. We've sort of learned to like each other as long as I'm up here on him, but if I get down I'll never get back up again, and I'll spoil my whole day."

**Sing "Hall, Hall."**  
After passing the crowds in Rockford, both horses and men seemed to breathe deep sighs of relief. When the column passed over the high bridge spanning the Rock river and entered the Joliet road, the "route step" command was given. Spontaneously all along the line the gunners swung into marching songs. "Hall, Hall, the Gang's All Here" was the prime favorite and long before the first night's camp was reached the entire brigade adopted it for their own. Battery after battery swung through the Lovejoy farm gates bellowing the hall song and after mess tonight, banjo choruses took up the tune before tattoo called for blankets under the stars.

**GARAGE OWNER HELD FOR SHOOTING.**  
R. M. Hoffman, proprietor of the Cornelia garage, 1647 Broadway, was held to the grand jury yesterday by Judge John R. Sawyer in the Sheffield avenue court on a charge of assaulting Arthur Newman, 205 North Clark street, with a deadly weapon. Hoffman is alleged to have shot Newman after an argument when Newman refused to leave the garage. Newman was employed by Mr. George F. Baldwin, 3830 Sheridan road, who kept his automobile in the Cornelia garage.

## U. S. SENDS OUT 2 DRAFT CALLS FOR 51,600 MEN

Washington, D. C., May 14.—(Special.)—Two draft calls, aggregating 51,600 men, were sent out today by the provost marshal general. The men called to the colors will be moved to the camps from May 20 to 24 and from May 29 to June 7, respectively.

Today's calls bring the total number of men summoned since May 1 up to 311,000. This indicates the increased speed with which troops are being sent abroad as contrasted with previous periods when the totals for the various months fell below 100,000.

The Illinois quota and the camps to which they are to be sent are as follows: Movement from May 20 to 24: 5,500 to Jefferson Barracks, Mo. Movement from May 29 to June 7: 5,500 to Jefferson Barracks, Mo.; 4,000 to Fort Thomas, Ky.

The draft will be utilized for the present to provide only fighting men. Secretary of War Baker announced today, and not to recruit men for the war industries. The advisability of drafting labor had been suggested to the war department as a means of speeding munitions work.

**HELD AS SLACKER.**  
Christopher Dietrich Wilhelm Behrens, an employe of the south side board, charged with failing to register for the selective draft, was yesterday held for trial in \$1,000 bond by Commissioner Mason. He claimed at the time of his arrest that he was 32 years old, his passport found in his possession show that he is still within draft age.

## The Truth About Shoes

If you want the *best*, you will wear Martin & Martin shoes; if you want the *cheapest*, you will wear Martin & Martin shoes. The success of Messrs. Martin & Martin is due entirely to the fact that they have solved the shoe problem *correctly*. By making and selling one grade of shoes only—the best—they have introduced a new kind of shoe economy—the *economy of quality*. There is no other economy like it. Thousands have tested it and are saving money by it every year. One pair will prove all our claims. And the trial is at our risk.

## LEWIS TO HEAD SULLIVAN PLATE IN COUNTY

### Over Democratic Nomination for Sen- ator Assured.

Senator James Hamilton Lewis will be a candidate for re-nomination and re-election to the United States Senate in Cook county next year. Lewis is now in Washington completing all of the early details of his campaign.

The information is believed to be reliable. It was brought to Chicago by a man who is known to be reliable. It is believed that Lewis will be re-nominated by the Democratic party in Washington.

It is further believed that Lewis will be re-nominated by the Democratic party in Washington. It is further believed that Lewis will be re-nominated by the Democratic party in Washington.

Parties to Deal.

As far as the Democratic party is concerned, the issue is not a question of whether or not Lewis will be re-nominated. The issue is a question of whether or not Lewis will be re-nominated by the Democratic party in Washington.

McCormick Gains.

Clarence F. Buck issued a statement last night, as chairman of the McCormick campaign committee, that covers the progress of the McCormick campaign up to this point.

Buck's statement said: "McCormick's candidacy has gained him rapidly since his announcement was made in January."

A belief that is state-wide has been fixed in the minds of the Republican voters of the state—namely: McCormick would be the strongest candidate they can nominate and also that he elected his recognized ability to give added strength to Illinois in the United States Senate.

McCormick's campaign committee is now in the hands of the Republican party. The campaign committee is now in the hands of the Republican party.

Sexton, Tolman, and Fyfe Mentioned for Vacancy.

Two former corporation counsel, William H. Sexton and Maj. Edgar E. Tolman, were prominently mentioned in the gossip yesterday for the vacancy in the United States Circuit Court of Appeals caused by the death of Judge C. C. Kohlman. Colin C. H. Fyfe, attorney for the election board and a former assistant corporation counsel, was likewise put forward as a possibility.

The Thirty-third Ward Loyal Republican club will hear an address Friday night from Maj. W. O. Nance of the Sixth ward. The meeting will be held at Hamlin hall, Armitage and Hamlin avenues. Albert F. Keeney is president and George M. Bagby secretary of the club.

Ald. Henry D. Captain urged the city council committee on judiciary yesterday to order the city redistricted. A subcommittee will look into the feasibility of the plan and report to the committee before any action is taken.

Word was brought to Chicago yesterday that W. W. Bennett, former mayor of Rockford, has announced his candidacy for congress in the Twelfth district, against Representative Charles E. Fuller.

ambitions to blot him out at the Republican primaries, while the Democrats are shouting that this year they will carry the district.

Mr. Wilson's record on the war is to be made the issue at the primaries. His opponents plan to use his 1915 and 1916 record against him in 1918. Before Germany forced us into the war Mr. Wilson made an anti-war speech or two in congress, or at least, he got them into the Congressional record, and then distributed them among his constituents.

Neutrals Groom De Young.

The Brundage camp said yesterday it would probably back Frederick R. De Young, a state representative, against Congressman Wilson. The city hall group for some weeks has been talking of trotting out Harry Atwood for the place.

By the time Wilson has gone through the primaries, congress will need a new guide to the capitol," said Charles A. Williams, committee man, neutral group. "The issue will be vigorous prosecution of the war, and Mr. Wilson has not been as vigorous as the district desires."

Democratic Possibilities.

The Democrats are looking around for a candidate on which all their factions can unite. Charles S. Thornton, former corporation counsel, who lives in the Thirty-second ward, was trotted out for display yesterday by some of the Englewood chiefs.

Others under consideration are Joseph P. Ryan, who was head of the Thirty-second ward Democratic organization and sat as a delegate in the St. Louis national convention; Fred J. Crowley, who a few years ago came within less than 100 votes of defeating Mr. Wilson and filed a contest in congress; and George E. Gorman, who defeated Mr. Wilson in 1912.

# OVALTINE

## A Healthful Fountain Drink

Just say "Ovaltine" to the clerk at the soda fountain. Thousands are saying it daily. Learn what a tempting drink he can prepare for you. You'll like this delicious Swiss egg malted milk with its nut and cocoa flavor.

Ovaltine is more than a thirst-quenching drink. It is a health-building food that nourishes and invigorates. So ask for Ovaltine at the fountain this noon should you have no desire for a heavy luncheon.

Ovaltine is malt, milk, eggs and cocoa—concentrated and prepared according to a famous Swiss formula—easily digested and readily assimilated.

# OVALTINE

## A Nourishing Food for Home Use

Serve Ovaltine in your home. Your breakfasts and luncheons will be far more healthful if you substitute Ovaltine for tea and coffee. A glass of Ovaltine induces sleep when taken as a "nightcap."

Ovaltine is served in the hospitals of the allied armies and is helping to send thousands of soldiers back to the firing line to fight for the freedom of the world. So take a tip from "over there." Drink Ovaltine often.

Ovaltine is especially easy to prepare. The rich brown granules of super-nutrient dissolve instantly in milk, either hot or cold.

Ask for Ovaltine at any soda fountain. It is also sold by leading druggists in packages for home consumption.

## \$5,000 IS GIVEN SPECIAL FUND TO BILLY SUNDAY

### Mrs. Cyrus McCormick's Donation Is First Announced.

BY THE REV. W. B. NORTON.

The first gift of \$5,000 towards the fund for Billy Sunday was announced last evening at the tabernacle. The money was wired from Los Angeles by Mrs. Cyrus H. McCormick.

An appeal for the offering for Mr. Sunday, which he has promised to give to the Pacific Garden mission where he was converted thirteen years ago, was made by Dr. C. F. Wishart, pastor of the Second Presbyterian church, and chairman of the conservation committee.

Mr. Sunday is living a life of sacrifice," said Dr. Wishart. "I have received from him in these meetings values which cannot be measured in terms of money. I think, too, his giving all he receives to the Pacific Garden mission is a beautiful thing to do."

43,144 Total Trail Hitters.

There were 402 trail hitters at the night service and 173 at the afternoon service. The total trail hitters to date is 43,144.

Among those who hit the trail who arrested Billy's special attention so he stopped the line of those coming up to shake his hand to converse with her, was Mrs. A. W. Southmann, daughter of Capt. Anson, captain of the old White Stockings when Billy was a member of the team.

The largest delegation was from the Fair, while other large delegations were from the Monroe and Otis buildings. John D. Shoop, superintendent of schools, and Mrs. Shoop sat on the platform, and a delegation of fifty or more from the board of education sat in a reservation.

Criticizes His Critics.

Billy Sunday's method of counting all who walked up the sawdust trail as real trail hitters, which was criticized by certain ministers at the Methodist preachers' meeting on Monday, was defended by Billy in the afternoon. He turned his guns against the ministers and all others who are not willing to take his methods along with taking him.

Gipsy Smith, the English evangelist, was called forward with the request he sing a solo. Instead of complying, he administered a sharp rebuke to any of the idly curious who might have come forward at Billy's invitation. One hundred and seventy-three had taken Billy by the hand and sat in the seats directly in front of Gipsy.

If any of you came forward simply to shake hands, you are hypocrites and frauds," Gipsy said. "The invitation was for those to come who desired to publicly acknowledge Christ."

Evansville business property and Oak Park apartment and residence property figured conspicuously in yesterday's real estate news. There were two transfers of Evansville property, both being located on Davis street, west of Chicago avenue. In one Frank C. Dakin conveyed to Joseph Wigginton the property 50 feet west of the avenue, lot 44x115 feet, north front, with three-story building, for a stated consideration of \$32,700, subject to an incumbrance of \$10,000. The other was the sale by Evan S. McCarell to Isak Anderson of the property 40 feet west of the avenue, lot 28x125 feet, south front, with three-story building, for a stated consideration of \$30,000, subject to \$10,000.

The Oak Park flat sale covered the Elmwood apartment building at the northeast corner of Lake street and Elmwood avenue, which was sold by Clinton Mason and wife of San Francisco, to R. W. Barnhill of Oakland, Cal., for an indicated consideration of \$50,000, subject to an incumbrance of \$40,000. The building, which is of the court type, occupies a lot 122x120 feet, and contains forty-two apartments of two, three, and four rooms. The purchaser conveyed California land in exchange for the equity.

The deal in Oak Park residence property was the sale by Mrs. Katherine C. Keeler to Harry C. Warr of the property in Skoville avenue, 293 feet north of Chicago avenue, for a stated consideration of \$15,500.

There was filed for record the transfer by Fred Becklenberg to George H. Cole of the business property at the southwest corner of Cicero avenue and Superior street, for an indicated consideration of \$60,000, subject to an incumbrance of \$35,000. The lot is 72x125 feet, and is improved with a three-story building, containing three stores and thirteen apartments.

## For Constipation! Physic Purge or Laxative?

Everyone now and then becomes constipated; and millions are chronically in that condition. The perplexing question arises—what to use.

Purgatives and cathartics are drastic and usually cause a reaction. Saline waters are rapid in action but do no more than empty the bowels.

Just as certain an effect; and certainly a much more pleasant one, can be obtained by the use of a combination of simple laxative herbs with pepsin sold by druggists under the name of Dr. Caldwell's Syrup Pepsin. It acts gently, without griping. It is an especially ideal medicine for children, women, old people and others who find purges too powerful.

Only a teaspoonful is required, and by morning the movement is free and complete. A bottle in the house is insurance for the whole family against constipation, indigestion, headaches, flatulency and other digestive ills.

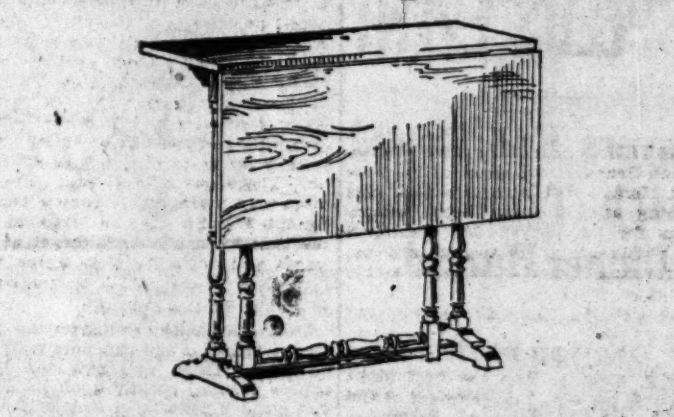

The druggist will refund your money if it fails to do as promised.

# ATCHISON MAKES NEW RECORD IN GROSS INCOME

Operating Expenses and Taxes Absorb Gain in Earnings.

In its fiscal year ended Dec. 31, 1917, the Atchison, Topeka and Santa Fe railroad made a new record in the matter of gross income. The total for the year was \$165,529,519, an increase of \$21,589,281, or 14.17 per cent, over the previous year. The increase in earnings, however, was absorbed by operating expenses and increased federal taxes, so that the net corporate income for the year was \$38,185,547, a gain of but \$63,358 over 1916. The earnings on the 1917-18 operating stock last year were 14 1/2 per cent. The capital the previous year was somewhat smaller, but the amount available for dividends was substantially the same.

The most important gain in earnings came from freight revenue, with an increase of \$14,715,756. Passenger revenue increased \$5,257,813.

Transportation charges, including wages and fuel, accounted for \$11,529,341 of the increased operating expenses. Equipment maintenance was larger by \$4,495,523. The company expended but \$465,220 increase for maintenance of way and structures.

Taxes Almost Double.

The operating ratio for the year was 83.57 per cent of operating revenues, compared with 81.27 per cent of the previous year.

Taxes were almost double in 1917, being \$11,839,260, against \$6,768,154 in 1916.

The annual report sets forth that since 1896 about \$25,000,000 of new money has been put into the property and at the end of 1917 the property investment stood at \$762,696,054, on which the per cent of income was 2.53 per cent. In 1916 it was 2.56 per cent. In 1896 the per cent was 1.75.

# HOGS DECLINE SHARPLY; 11,000 LEFT IN THE PENS

Hoover Statement to the Packers Adds to Depression.

After a steady to higher start yesterday's hog market declined sharply with 11,000 left in the pens. The Hoover statement to the packers, added to the general depression. Best hogs sold early at \$17.65, with the day's average price at \$17.63, being lowest in over a week, against \$17.58 on Monday, \$17.65 a week ago, \$18.17 a year ago, and \$19.08 two years ago.

Colorado woolled lambs closed 40c, or \$1.00 lower than a week ago, and \$2.10 below the record price of 1915.

Receipts for today are estimated at 9,000 cattle, 27,000 hogs, and 14,000 sheep, against 8,000 cattle, 26,000 hogs, and 13,000 sheep corresponding Wednesday a year ago.

Yesterday's hog purchases at Chicago were as follows:

# TALK OF THE STREET

OTHER profit taking and an impression that the market for the war material caused an easing off in the shares which had been the most buoyant in the last week. Steel common closed 1/2 below Monday. The general tone was improved by the announcement of a probable increase of 20 or 25 per cent in railroad rates.

The railroad stocks were immediately stimulated by the prospective advance in rates, although this has been found to enable the government to make good its guarantee without taxing the country as a whole through a bond issue.

All the high grade rails and a number of the low priced ones moved quickly upward. St. Paul common touched 48, though it lost 2 points of the gain. Reading finished up 1 point after gaining 2 1/2.

New Haven was the star performer, advancing from 25 1/2 to 40 1/2. It closed off 1/2 from the high.

Erle shares, which have been hopelessly held since the middle of last year, preferred moved up 2 1/2 points. It held the better part of the gain. The common was active and absorbed a large volume of offering. The Hill stocks were irregular. Great Northern showed no

# MINERALS CASE TO BE TAKEN TO SUPREME COURT

Minerals Separation, Ltd., will take its case against Butte Superior Mining company to the United States Supreme court, according to H. D. Williams, counsel for the company. The plaintiff will apply for a writ of certiorari and it is expected if the Supreme court consents to hear the appeal that the matter will come up in Washington next October. The application of the Minerals Separation interests will affect a suspension of judgment in the meantime.

Butte Superior interests decline to comment on the decision before studying the opinions of the three judges of the San Francisco court. It was pointed out with regard to dividends that President Mackelvie last fall told the stockholders that distribution to the shareholders will be discontinued until the Minerals Separation suit had been finally decided.

The automobile stocks did not attract much attention, although General Motors was up to 1 1/2. Studebaker and Maxwell first preferred were fractionally higher.

New York call money ruled around 4 1/2 per cent. If the eastern banks generally decide to lend on all industrial collateral the situation from a stock market standpoint will be considerably improved, even though there be an advance of 1/2 per cent over the charge made for loans on mixed collateral.

"Looking forward with every prospect of a resumption of greater military activities on the western front, we expect the market to continue active and buoyant," writes a certain house and speculator for a statement of the treasury balances as of April 1 and for information regarding the necessity of new finance legislation, caused the selling pressure, since Friday, but adds that the market was ripe for such a movement.

# AMERICAN SUGAR DECLARES FOUR EXTRA DIVIDENDS

New York, May 14.—The American Sugar Refining company today declared four extra dividends of three-quarters of 1 per cent on the common stock, to be paid during the next four quarters, together with the usual quarterly dividends of 1 1/2 per cent each on the common and preferred stock.

Earl D. Babst, president, said after a directors' meeting that notwithstanding present uncertainty as to operating expenses, the extra dividends were justified because of the increased income during the last three years.

New York, May 14.—[Special] reaction which was due to the almost uninterrupted rise in the industrial list to the effect in the face of the news bearing on the railroads while it resulted in losses in the most active steel issues, of the market as a whole was strong.

The report that the railroads had decided upon an advance of 25 per cent on passenger rates did not complete surprise, since it was an increase of this size was coincident with the report of the steel companies that they had decided to raise their prices on steel products.

# Statement of Condition of the STATE AND NATIONAL OUTLYING BANKS OF CHICAGO

THE TRIBUNE has often pointed out the utility of the outlying or neighborhood banks of Chicago and their relation to the civic and industrial life and growth of the city. At the time of the Third Liberty Loan these banks demonstrated that they were, in addition to their other virtues, endowed with the power to produce the sinews of war in the form of thousands of subscriptions to the loan totaling well up into the millions. The Irving Park National bank, with deposits of about \$1,100,000, handled over \$350,000 in Liberty Loan subscriptions. The Peoples Stock Yards State bank handled over \$684,000 in subscriptions and the number of subscribers was over 9,000. The Sheridan Trust & Savings bank was the leader in the Edgewater and Wilson avenue district in not only the volume of subscriptions but in the actual solicitation work. In fact, there is not a single outlying banking institution in the city that has failed to do its full part in this respect.

Notwithstanding the heavy drain on these banks during the last few weeks, they show **PROGRESS**—the kind of progress that can only come from intelligent organization and efficient management. The fact that these banks are under state or government supervision, many of them members of the Chicago Clearing House and some of them members of the Federal Reserve System, accounts for their solidity and their steady growth.

Along these lines we call attention to the statements printed on this page. The substantial gain of the South Side State bank of \$160,000 puts the total deposits of that bank up to \$3,000,000. This is a remarkable growth. The Central Mfg. Dist. Bank shows the tremendous gain of over \$877,000 since last call. The West Town State bank shows a gain of over \$139,000.

The Woodlawn Trust & Savings bank shows a gain as well as the Austin State bank. The Reliance State bank shows the very substantial gain of \$264,300 since the last call, and the Peoples Stock Yards State bank shows a gain of \$552,000—which is the largest gain of any outlying institution except the Central Mfg. Dist. Bank. In the face of these figures the people of Chicago may well continue their patronage of these outlying institutions.

Many Most Delightful Modes Here in  
Women's New Foulard Frocks

Those fresh-looking,  
summertime frocks  
women are choosing  
this year for street wear  
and for the more infor-  
mal social occasions the  
times have brought,  
can be chosen here at

\$27.50 and \$35

At \$27.50—the foulard  
frock pictured at the right;  
has sleeves of Georgette  
crepe and a gracefully  
draped tunic. In printings  
of white on navy blue.

At \$35—the foulard frock  
pictured at the left. The  
surprised bodice finishes in a bow at the back. Tucked  
Georgette crepe makes collar, cuffs and vestee.

Frocks of Foulard Veiled in Georgette Crepe  
The effect is charming. Blue foulard dotted in white  
or in more striking printings is veiled in navy blue Georgette  
crepe to make these frocks. At \$30 to \$80.

The May Sale of Summer Frocks Continues—

It brings daintily fine frocks of voiles and  
organdies and linen frocks in smart-looking  
lines at varied prices from \$10.75 to \$40.

Fourth Floor, North.
